Tendering Procedures and Bid Evaluation

Tendering Procedures and Bid Evaluation

Introduction:

This Tendering Procedures & Bid Evaluation training conference will examine all the input that has influence and direct impact on tendering procedures and bid evaluation. The key elements include understanding business need, market analysis, supply chain cost modeling, contracting strategy, and contract award up to and including contract initiation. It introduces a methodology in classifying the 3rd party goods or services for an organization based on supply risk to spend value. Then a methodology will be introduced to help assign the best-fit market approach to a particular category or its sub-category. All of these will lead to best-fit tendering procedures and bid evaluation.

When should we play it safe by only allowing experienced and proven suppliers to bid? When and how can we develop new suppliers? What is a fit-for-purpose suppliers selection process? How best to master a tender negotiation? How to handle or avoid contract award disputes? How to meet the increasingly aggressive local content requirements in developing countries? What is the unwanted by-product of chasing for localization targets?

Conference Objectives:

At the end of this conference the participants will be able to:

- Classify 3rd party goods and services based on supply risk and value of spend
- Determine the procurement strategy choices available for a given opportunity
- Plan and manage a competitive tender process from A to Z
- Identify, assess and make proposals on how to manage procurement risks
- Create an appropriate evaluation methodology to judge bids and tenders
- Evaluate vendor proposals from a technical and commercial perspective
- Prepare for and conduct professional negotiation with suppliers
- Handle the outcomes from a competitive bid process

Targeted Audience:

- Engineering Project Professionals
- Contract Professionals and Administrators
- Contract Analysts
- Contract Engineers
- Specifiers, Buyers, and Purchasing Professionals
- Procurement Officers
- Anyone involved in the preparation, evaluation, and management of commercial invitations to tender, requests for bids and proposals and contracts for the purchase of services, materials, or equipment
