Finance, Risk Management & Corporate
Governance

Finance, Risk Management & Corporate Governance

Introduction:

This training offers insights into the world of corporate finance, risk, and governance. Capital markets are central to the globalization phenomenon and essential for a well-functioning society. Because of this centrality and essential nature to societies, focus and attention must be paid to their proper functioning and oversight. To that end, this program offers an overview of the interaction between management and all other stakeholders. Diverse and complex stakeholder demands are best met by an efficient allocation of resources over an extended period.

Conference Objectives:

At the end of this conference the participants will be able to:

- Specify the exact nature and scope of corporate financial reporting
- Identify and criticize specific concepts, rules, and procedures are in place for corporate financial reporting
- Understand how & why working capital is critical in today's world
- Understand how & why capital structure can make or break a firm
- Learn how capital budgeting can go so wrong if not performed properly
- Identify and overcome limitations that are inherent in corporate financial reporting and/or corporate governance
- Manage risk analysis & decision making

Targeted Audience:

- Risk and Compliance Managers
- Middle managers who require a more in-depth understanding of the concept of governance & Risk Management for state & Public Sector
