Contract Risk Management & Compliance

Contract Risk Management & Compliance

Introduction:

One of the major functions of contracting is to ensure that risks to owners and contractors are identified and managed in a way that both parties are satisfied with the project outcome. While a contract cannot, of itself, make risk "go away", it can, and should, identify the risks, determine who is responsible for managing each risk, and for the consequences should the risk occur

Conference Objectives:

At the end of this conference the participants will be able to:

- Provide an understanding of how risk arises
- Compare different methods of identifying and assessing risk
- Review the impacts of different approaches to risk allocation
- Explore different Contract types to transfer risks
- Consider the contractual techniques to ensure effective risk allocation
- Review risk management techniques during the life of a contract

Targeted Audience:

- Contracts, Tendering, Purchasing, Procurement, and Project Personnel
- Contract Administration, Engineering, Operational and Maintenance Personnel
- Risk, Claims, Financial, and Audit Personnel
- Project Management Professionals
- And all others who are involved in the planning, evaluation, preparation, and management of tenders, specifications, awards, and contracts that cover the acquisition of materials, equipment, and services and who are in organizations whose leadership want high levels of competency in those involved in these activities
