€TRAINING

Seminar: Certified ISO/IEC 38500 IT Corporate Governance Manager

Seminar: Certified ISO/IEC 38500 IT Corporate Governance Manager

Introduction

You can obtain a solid understanding of the fundamentals of effective IT governance based on ISO/IEC 38500 with the ISO/IEC 38500 IT Governance Manager training. You will learn the skills you need to assist a company in using and administering the ISO/IEC 38500 Evaluate-Direct-Monitor model during this training course.

You can take the exam and apply for the "Certified ISO/IEC 38500 IT Corporate Governance Manager" certificate once you are familiar with all the essential ideas and principles of IT Governance. Your ability to operate an IT Governance model will be shown by your possession of a Certificate.

Course Objectives

At the end of this course, participants will be able to:

- Recognize the fundamental tenets of ISO/IEC 38500 and discover how to apply them.
- Become familiar with the ISO/IEC 38500 Evaluate-Direct-Monitor Model.
- Acquire the expertise required to assess, manage, and keep track of an organization's use of IT.
- Recognize CGEIT and COBIT 5
