# Strategic Planning and Performance Evaluation for Operational Policing

## Introduction:

This seminar is designed to provide leaders and professionals with a set of transformational tools and techniques to help them maximize their own and their team's creative potential in a strategic context. Its starting-point is self-discovery: participants will work on the inside first and then focus outwards to impact on the world of business.

The focus of the first week of this 2-week seminar will be on thinking in different ways. Participants should be prepared to move out of their comfort zone and experiment with new ways of creating and communicating an inspiring leadership vision.

The second week helps demystify the frequently-misunderstood concept of "strategy".
