Payroll: Preparation, Analysis and Management

REF: H1452 DATE: 7 - 11 October 2024 Venue: Cambridge (UK) - Fee: 5830 Euro

Introduction:

Employee costs from payroll and other benefits are among the largest costs in any company other than the Cost of Goods Sold COGS, rent, and depreciation. If you are in a goods-producing organization and this cost is part of your COGS or part of your operating costs, it means the effect on you will be doubled. Having these costs processed and reported properly is key for analysis and decision making. This course starts with introductions about the departments of HR and 'accounting and finance' then focuses on the payroll function. The course goes through the process of preparing and calculating payroll and includes the controls needed and the pre-checks necessary to make sure correct data is used. The course enforces the knowledge of controls and proper processes in the workflow to achieve better efficiency in the department. Employee benefits and their effect on the corporation are discussed and we explain how to conduct analysis on payroll and benefits using Excel. In addition, the course highlights the topics of accounting, internal and external audit relations with HR and payroll and the data that could be required by them. The course then stresses the need for confidentiality in the payroll department and the importance of sharing data with others on a need to know basis or as per corporate policies. The course ends with ways to prepare budgets for the department and payroll and benefits costs of the corporation.

Course Objectives:

At the end of this course the participants will be able to:

- Explain how the HR and accounting and finance functions contribute to their success.
- Prepare the monthly payroll and review it for accuracy.
- Calculate employee benefits, loan vacations, and End of Service Benefits EOSB.
- Reconcile payroll with accounting and audit the supporting documents for payments.
- Develop monthly and annual payroll budgets.
- Design periodic payroll management reports and analysis.
