Strategic IT Leadership

REF: ST143 DATE: 26 August - 6 September 2024 Venue: Amsterdam (Netherlands) - Fee: 9460 Euro

Introduction:

Management of IT services is no longer enough. The strategic importance of information services to the enterprise makes IT a critical partner in meeting business goals. Defining IT strategy, and leading an agile IT organization that is customer-centric, making good strategic management and technical decisions, and leverage your IT resources is the challenge IT leaders face today. Strategic IT Leadership will give you the skills you need to meet these challenges.

Course Objectives:

At the end of this course the participants will be able to:

- Learn techniques for aligning IT and corporate strategy for maximum ROI.
- Develop visionary, innovative, and effective IT strategies for the success of the organization.
- Making new IT initiatives and technologies support the corporate vision.
- Improve personal management, influence, and negotiation skills.
- Learn to evaluate technology solutions, vendor selection, and outsourcing.

Targeted Audience:

IT professionals from both technical and management backgrounds – including those who oversee IT operations, networks/systems, and IT projects would benefit from this seminar. It will be of particular value to technical professionals who have been--or are about to be--promoted to an IT management position and experienced professionals who are new to the technical environment.

Course Outlines:
