Advanced Project Management

REF: P330 DATE: 27 - 31 May 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction

This training program caters to experienced project managers aiming to master advanced project and program management techniques for complex projects. Aligned with the PMI®'s PMBOK®, it emphasizes integrating project management processes into organizational culture with senior management support.

Program objectives:

At the end of this program, the participants will be able to:

- Enhance risk management practices across the project life cycle.
- Implement robust metrics for tracking project progress, minimizing speculation.
- Enhance management strategies for challenging vendors.
- Refine time and cost estimates, particularly for high-risk projects.
- Mitigate cost and schedule risks using advanced methodologies.
- Ensure accurate progress reporting and enhance stakeholder engagement on complex projects.

Targeted Audience:

- Project managers and team leaders.
- Program and Operations managers.
- Project coordinators.
- Business analysts.
- Team members assigned to projects.
- Project control professionals.
- Construction managers and supervisors.
