Maintenance Management Best Practices

REF: O911 DATE: 30 September - 4 October 2024 Venue: London (UK) - Landmark Office Space Fee: 6375 Euro

Introduction:

Maintenance Management Best Practices are critical for every successful individual and company. This course has been designed to benefit both qualified new professionals as well as experienced professionals who might need to refresh their skills. It covers all the fundamentals of Maintenance Management that a suitably qualified professional would be expected to carry out during his duty starting with the first steps and building up in a staircase fashion to a fully functional maintenance organization.

Course Objectives:

At the end of this course the participants will be able to:

- Instruct Maintenance Management optimization best practice techniques
- Provide opportunities to discuss the application of these best practices
- Provide an opportunity to learn these concepts through practical exercises
- Distinguish and optimize the special characteristics of maintenance activities

Targeted Audience:

- Maintenance Staff
- Reliability Staff
- Engineering Staff
- Technical Support Staff including Leadership and Management

Course Outlines:
