# Managing Efficient Shutdowns & Turnarounds

REF: O920 DATE: 9 - 13 June 2024 Venue: Online - Fee: 2500 Euro

## Introduction:

Planning and managing shutdowns, turnarounds, and outages in the process plant environment is a complex and demanding function. If turnarounds are not properly planned, managed, and controlled, companies run the risks of serious budget overruns, costly schedule delays, and negative impacts on customers.

## Course Objectives:

At the end of this course the participants will be able to:

- Enhance the company's turnaround management capabilities, and to ensure a team approach in the planning and execution of plant shutdowns and turnarounds
- Provide a comprehensive understanding of effective turnaround management techniques and implementation
- Create awareness of planning methods and an integrated organizational approach in the execution of successful turnarounds
- Incorporate the latest developments in turnaround planning and management techniques and emerging industry trends
- Develop an action plan to improve their turnaround management techniques
- Have a much clearer understanding of their own and every other team members role in ensuring a successful turnaround

## Targeted Audience:

- Shutdown or Turnaround Professionals and Coordinators
