Cobit 2019 Foundation

8 - 12 September 2024
Sharm El-Sheikh (Egypt)
Sheraton Sharm Hotel,
Resort,

Cobit 2019 Foundation

Introduction

A greater grasp of IT governance and management is the goal of this COBIT 2019 Foundation course. COBIT is a comprehensive library of information, tools, models, and resources that enable business executives to achieve their goals for effective governance. Best practices for corporate information and technology governance and management can be found in COBIT 2019 FOUNDATION, the most recent version of the industry-leading framework for these activities

Course Objectives

At the end of this course the participants will be able to:

- Learn what is COBIT in a digestible way in human language with real-world examples

- Understand COBIT principles, components, and objectives

- How each of the several IT governance frameworks, such as ITIL and NIST, operates, and what their advantages and disadvantages are.

- Prepare for your official ISACA 2019® Foundation exam

- Start using COBIT yourself immediately upon completing the course

Targeted Audience

- IT Administrators

- IT Governance Professionals

- Compliance Professionals
