Conference: Fundamentals of Shifting from the Cash System to the Accrual System Using a Computer

REF: C1751 DATE: 27 - 31 May 2024 Venue: Trabzon (Turkey) - Fee: 5850 Euro

Introduction

Given the importance of moving from the cash basis to the accrual system in a smooth and simple manner, this training course shows the foundations of the transition from the cash system to the accrual system using the computer.

The cash basis accounting is based on the movement of cash only, but accrual accounting records revenues when they are achieved and expenses when they occur instead of recording them when the relevant cash amounts are received or paid, adding accrual accounting recording for assets, liabilities, and equity {net assets}.

Course Objectives

At the end of this conference the participants will be able to:

- Shift from the application of the modified monetary system to the accrual system.
- Gain the advantages of accounting based on the accrual system.
- Gain the foundations of measurement in accounting.
- Valuing of the Fixed asset.
- Prepare financial statements in government units
- Apply cost accounting in government units.

Targeted Audience

- Internal and external auditors.
- Accountants and those working in financial management and those interested in preparing and analyzing financial statements.
- Persons engaged in credit analysis activities in banks who are involved in analyzing the financial statements of establishments.
- Responsible for following up and collecting customer accounts.
