General Services and Facilities Management

REF: M1356 DATE: 23 - 27 December 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

The General Services and Facilities Management training program provides comprehensive instruction on effectively managing various aspects of facilities and services within an organization. Participants will learn strategies for optimizing facility operations, enhancing service delivery, and ensuring the efficient management of resources.

Program Objectives:

At the end of this program, the participants will be able to:

- Understand the basics of facilities management.
- Understand how to draw up a preventive maintenance concept, based on risk.
- Develop strategies to decide when and what to outsource.
- Understand the different types of contracts.
- Identify and monitor the facilities management-processes performance.

Targeted Audience:

- Facility managers and supervisors responsible for overseeing the maintenance and operation of buildings and facilities.
- Service managers and coordinators involved in managing service delivery and customer satisfaction.
- Maintenance technicians and staff responsible for conducting repairs and upkeep of facilities and equipment.
- Procurement and logistics professionals involved in sourcing, purchasing, and managing facility-related supplies and services.
- Administrative staff and support personnel involved in office management and administrative functions within facilities.
