Advanced Course: The Art of Measuring Impact

REF: H2134 DATE: 21 October - 1 November 2024 Venue: London (UK) - Landmark Office Space Fee: 7950 Euro

Introduction:

The purpose of this training course is to provide participants with a comprehensive understanding of the principles, tools, and techniques for measuring the impact of social programs and initiatives. Participants will learn how to design, implement, and evaluate impact assessments to ensure that social programs and initiatives are achieving their intended outcomes.

Course Objectives:

At the end of this course, the participants will be able to:

- Understand the concepts of impact measurement and how it relates to social programs and initiatives
- Learn about different methods and tools for measuring impact
- Identify key indicators to measure impact and how to collect data
- Learn how to analyze impact data and interpret results
- Develop skills in designing and implementing impact assessments
- Understand how to use impact data to inform program improvement and decision making

Targeted Audience:

- Program managers
- Project coordinators
- Social entrepreneurs
- Government officials
- NGO leaders
- Grant writers
- Social impact investors
- Monitoring and evaluation officers
- Research and development professionals
- Nonprofit executives
