Strategic Planning, Development & Implementation

REF: ST8 DATE: 3 - 7 June 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

Effective strategic leadership is primary to the future success of any organization. This starts with defining a clear strategic vision - setting out the leadership team's strategic intent for the organization and its various businesses. This then needs to be translated into an agenda for action - not merely a "strategic plan" but a set of guidelines or a road map setting out where the business needs to go and empowering managers at all levels to make the multitude of decisions that they need to make in the clear understanding of where the business is heading.

In this course, both strategic leaders and first-line professionals will participate in how to develop, implement and structure the changes necessary to make a new strategy, vision or mission work efficiently in today's dynamic environment. It will focus on the development of the core strategies and plan to make the organization reach its vision or targets, and then will drill deeper into the organization to develop techniques that get the workforce "on-board" with the changes and have them participate in working out the problems and implementing the new strategies.
