The Financial Excellence Program

REF: F167 DATE: 4 - 15 November 2024 Venue: Madrid (Spain) - Fee: 7950 Euro

Introduction:

This course provides business professionals with a deeper understanding of financial management as practiced by today's most powerful companies by demystifying the complex world of finance and providing the tools and insights that you will need to meet your own professional goals and the greater goals of the organization you serve.

Course Objectives:

At the end of this course the participants will be able to:

- Understand the fundamentals of the successful management of corporate financial performance, from the development of strategy through planning and budgeting to performance monitoring and control
- Develop practical experience of the workings of a best practice financial performance management model, and of how to improve corporate financial performance in real-life
- Raise their financial skills
- Understand today's major issues in international corporate finance and budgeting
- Make improved finance and capital budgeting decisions, which will increase their importance to their organization.
- Identify areas in which they may be able to contribute to improvements in the financial performance of their company which will help improve their career development.
- Utilize sophisticated investment appraisal techniques
- Recognition of the appropriate tool to manage risk

Targeted Audience:

- Staff who wish to gain an up-to-date and broader perspective on how industry leaders continually improve their financial performance
- Financial and non-financial business professionals from all functions of a business
- Financial professionals wanting an update or a 'refresher' of their knowledge
- Recent company recruits who need to learn about modern corporate financial performance management processes, and develop their competencies in this area
