Information Technology Strategies

REF: ST1723 DATE: 27 - 31 May 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction

IT Strategy certification course focuses mainly on the challenges related to developing a digital strategy as well as highlighting how to align a digital business strategy with an IT strategy for business success. IT Strategy course is ideal for participants who wanted to develop their essential skill which is required to overcome digital disruption from new technologies. The course is taught through interactive case studies and practical hands-on exercises. The course ensures participants will learn a structured and flexible approach for addressing service management challenges as well as how to get the most value from their digital property.

Course Objectives

At the end of this course the participants will be able to:

- Knowing to demonstrate the use of the ITIL® guiding principles in Digital and IT Strategy decisions and activities
- Understanding on how to leverage digital strategy to react to digital disruption
- Understanding the relationship between the concepts of Digital and IT Strategy, the service value system and the service value chain, and explain how to utilize them to create value
- Knowing of how an organization uses Digital and IT Strategy to remain viable in environments disrupted by digital technology
- Able to understand strategic approaches made possible by digital and information technology to achieve customer/market relevance and operational excellence
- Understanding the risks and opportunities of Digital and IT Strategy
- Understanding the steps and techniques involved in defining and advocating for a Digital and IT Strategy
- Understand how to implement a Digital and IT Strategy
