Conference: Project Risk Management & Compliance

REF: C2140 DATE: 5 - 9 May 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 4095 Euro

Introduction:

Identifying and managing risks to owners and contractors in a way that both parties are happy with the project's conclusion is one of the main purposes of contracts. While a contract cannot, by itself, "make risk go away," it may and should identify the risks, as well as specify who is in charge of managing each risk individually and what would happen if the risk materialized.

Conference Objectives:

At the end of this conference, the participants will be able to:

- Give an explanation of how risk develops
- Compare various approaches to determining and rating risk.
- Review the effects of various risk-adjustment strategies.
- Investigate various contract types to shift risks.
- To guarantee efficient risk allocation, take into account contractual procedures.
- Review risk-management strategies while a contract is still in effect.

Targeted Audience:

- Project personnel, contracts, tenders, purchases, and procurement
- Personnel involved in contract administration, engineering, operations, and maintenance
- Personnel for Risk, Claims, Finance, and Audit
- Professionals in project management
- All others who work for companies whose leaders demand high levels of proficiency from individuals engaged in these activities as well as those who plan, evaluate, prepare, and manage tenders, specifications, awards, and contracts that cover the procurement of materials, equipment, and services.
