Trend Micro Apex One Training

REF: B2197 DATE: 9 - 13 December 2024 Venue: Paris (France) - Fee: 6555 Euro

Introduction

The Trend Micro Apex One™ training will teach you how to use it. The basic architecture, security features, deployment scenarios, and troubleshooting are covered in detail in this course. Participants gain practical experience installing Apex One security features and the administrative tools required for a smooth rollout and ongoing support through hands-on labs.

Course Objectives

At the end of this course, participants will be able to :

- Describe the goals, characteristics, features, and skills of Apex One.
- Give a list of the parts that make up Apex One.
- Utilize security agents to implement security
- Setup and management of Apex One servers and agents
- Employing Trend Micro Apex Central, deploy Apex One policies.
- Troubleshoot typical problems

Targeted Audience

This course is designed for IT professionals responsible for protecting endpoint computers from data breaches and targeted attacks.

This includes those involved with: Operations - Deployment - Security Response - Compliance.
