Mini MBA: Accounting & Finance

REF: F178 DATE: 20 - 31 May 2024 Venue: London (UK) - Landmark Office Space Fee: 7950 Euro

Introduction:

This course offers an in-depth overview of the accounting and finance world. Part 1 emphasized the internal workings of the finance/control function as it communicates with external and internal constituencies to provide information for decision making under uncertainty. Part 2 emphasizes the capital markets' impact on corporate finance, risk, and governance.

No preparation is necessary except to bring an open mind and a budget document or other financial documents of interest.

By combining techniques with analysis, problems, and examples with real case studies, and supporting theories the course provides delegates with key finance terminology and practice. This course not only presents the key financial tools generally used but also explains the broader context of how and where they are applied to obtain meaningful answers. It provides a conceptual backdrop both for the financial/economic dimensions of strategic business management and for understanding the nature of financial statements, analyzing data, planning, and controlling.

Course Objectives:

At the end of this course the participants will be able to:

- Specify the exact nature and scope of corporate financial reporting
- Identify and criticize specific concepts, rules, and procedures in place for corporate financial reporting
