Agile Project Manager Master Class

REF: BV1975 DATE: 27 - 31 May 2024 Venue: Singapore - Fee: 6325 Euro

Introduction

The world has evolved into a more volatile, unpredictable, complex, and ambiguous VUCA business environment. And recent occurrences like the pandemic, political unrest, and financial turmoil have driven this point home even more. Even when it comes to the demands and expectations of customers, change is constant. Successful businesses are evolving how they operate.

The training program concludes with a thorough examination of the most recent post-pandemic developments and what Agile implies for the company.

Course Objectives

- Understand when and how to use an agile approach to projects.
- Recognize and cite the advantages of an Agile strategy.
- the capacity to use Agile values and tenets across all projects
- Recognize the new culture and mentality needed for successful Agile delivery
- comprehend the significance of value-driven delivery and client attention
- Utilize tools for agile planning and delivery.
- Utilize the Scrum framework to set up and manage an Agile project.
- Describe the impact of Agile on larger organizations.
- Describe the newest developments in agile delivery since the pandemic.

Targeted Audience

- Project and program managers who wish to gain a practical knowledge of agile and how it can benefit their projects
- Senior leaders who want to understand how an agile approach could benefit their organisation
- Subject matter experts in marketing, strategy, product development, engineering, HR, customer management, sales, R&D or innovation who want to understand the benefits that Agile could bring to their day-to-day work
- Agile/ Scrum team members who would benefit from understanding the basis of Agile delivery
- PMO staff who support Agile projects and Agile delivery
