Managing Contractual Risks and Preparing Legal Structures for Dispute Resolution

REF: U1399 DATE: 3 - 7 June 2024 Venue: Madrid (Spain) - Fee: 5300 Euro

Introduction:

In every organization, care is taken to manage risks, by seeking to eliminate those that can be removed, and reducing and managing the remainder. Part of this process involves developing robust contracts that apportion risk equitably and include a structure of indemnities with contractors, supported by a comprehensive insurance regime. In addition, it is important that contract personnel understand contractual risks and what insurance can and cannot do to remove the financial consequences of such risk; remembering always that insurance only mitigates the effect of risk, it does not make the risk itself go away.

Course Objectives:

At the end of this course the participants will be able to:

- Understand the elements of a contract
- Analyze complex contract documents, and understand the inter-relationship between clauses
- Develop effective indemnity regimes
- Appropriate type and form of indemnities in different contracts
- Use indemnities to manage risks
- Know the limitations of indemnity clauses
- link indemnity and insurance arrangements
- Know what types of insurance are available in a contracting context
- Develop insurance clauses
- Know the latest thinking in dispute resolution techniques
