Organizational Agility Masterclass

REF: BV1982 DATE: 15 - 19 July 2024 Venue: Singapore - Fee: 6325 Euro

Introduction

Organizations must negotiate change and get the chance to improve rather than just getting by in a world that is changing at an unprecedented rate. A crucial component of business agility is managing projects and company processes in an agile manner, but organizational agility won't come naturally. Agile organizations require an agile strategy that takes an agile stance toward their market.

The Organizational Agility Masterclass training program's goal is to assist organizations in growing in their capacity for adaptability, creativity, and resilience. Participants will research and develop the skills necessary to make any organization genuinely agile.

Course Objectives

At the end of this course, the participants will be able to:

- Recognize the Agile attitude and the guiding tenets of pragmatism, the power of choice, and context-awareness.
- Apply a variety of cutting-edge agile and lean methodologies, including value stream mapping, Kanban ideals, principles, and practices, A3s, and lean thinking.
- Implement a change model that is grounded in modern management theory and human dynamics.
- Use methods to analyze and enhance your working procedures.
- Put these tactics into practice on your agile team and make sure they are implemented correctly.

Targeted Audience

- Business representatives
- Member of technical teams
- Managers and leaders of business units
- Engineers and technical staff
- Delivery managers and leaders of technical departments.
