# Pension Management

REF: H1789 DATE: 4 - 8 November 2024 Venue: Trabzon (Turkey) - Fee: 5300 Euro

## Introduction

The level of importance of pensions management within socio-economic systems is matched only by their complexity. Building sustainable and inclusive systems which assure decent retirement incomes is a key challenge for pension schemes and regulators. Effective pension systems rely on the engagement of many parties, all dedicated to delivering good retirement outcomes for pension-scheme members, including fund managers, scheme administrators, and actuaries.

## Program Objectives

At the end of this program, the participants will be able to:

- Understand pension principles and engender a more robust pension scheme provision
- Apply best practice governance to ensure more effective management of pension scheme risks
- Design and implement change in pension schemes to make them more sustainable and operationally efficient
- Shape objectives and informed decision-making on the proper investment of pension scheme assets
- Identify the specific opportunities and threats relating to the investment of pension fund assets:
  - In domestic and overseas market
  - In mainstream securities and private assets such as Private Equity Infrastructure
