Quality Assurance and Control

REF: A1197 DATE: 3 - 7 June 2024 Venue: Amsterdam (Netherlands) - Fee: 5565 Euro

Introduction:

This interactive Quality Assurance & Control training course is designed to develop the delegates' skills in quality assurance and control and give them the best practices they require to implement different types of quality programs, including Total Quality Management TQM, within their organization. Quality assurance and control are integral components of a quality management system that ensure that the product or service being delivered meets the customer's expectations.

Quality assurance and control systems provide guidance on principles, methods, and best practices for organizations to strive for excellence in everything they do. Quality management is a leadership practice that has a positive impact on the entire work environment. Effective leaders build a solid foundation that allows them to develop truly committed employees with high morale and improved performance, providing employees with opportunities for participation, problem-solving, and teamwork, it creates a level of motivation within each employee.
