ESG and Green Public Financial Management

REF: F2301 DATE: 22 December 2024 - 2 January 2025 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 5985 Euro

Introduction

Welcome to the comprehensive 10-day training course on "ESG and Green Public Financial Management." As environmental, social, and governance ESG factors gain prominence in global decision-making, the integration of ESG considerations into public financial management has become imperative. This course aims to equip participants with the knowledge and skills necessary to understand and implement ESG principles in public financial management processes, with a particular focus on promoting green and sustainable initiatives.

Course Objectives

At the end of this course, Participants will be able to

- Understand the concepts and significance of ESG factors in the context of public financial management.
- Explore the role of ESG in promoting sustainable development and green initiatives.
- Learn strategies for integrating ESG considerations into budgeting, procurement, and investment processes.
- Develop skills to assess, measure, and report ESG performance in public financial management.
- Identify best practices and case studies for effective implementation of ESG principles in public finance.

Targeted Audience

This training course is designed for professionals and stakeholders involved in public financial management, sustainable development, and ESG implementation. The course is particularly relevant to:

- Government officials responsible for financial management, budgeting, and policy-making.
- Financial managers and analysts in the public sector.
- Sustainability and ESG professionals working in government agencies.
- Development practitioners engaged in sustainable development projects.
- Researchers, academics, and students interested in ESG and public financial management.
