Project Management Skills

REF: P1204 DATE: 6 - 10 May 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction:

The Project Management Skills program is tailored to enhance participants' competency in essential project management practices and techniques. Through a blend of theoretical knowledge and practical applications, participants develop proficiency in leadership, communication, problem-solving, and decision-making within project environments.

Program Objectives:

At the end of this program the participants will be able to:

- Plan projects using the statement of work and Work Breakdown Structure WBS.
- Schedule projects activities and build the project network model.
- Calculate project budgets and schedule variances using Earned Value EV techniques.
- Select the right projects using capital budgeting techniques.
- Relate to project stakeholders through better negotiation and communication skills.

Targeted Audience:

- Project managers.
- Members of project offices.
- Project Sponsors.
- Functional managers and Senior management.

Program Outlines:

Unit 1:

Planning Projects:

- Distinguishing Projects from Operations: Definitions and Applications.
- Managing Project Constraints and Benefits.
- Exploring the Project Life Cycle and Charter.

- Defining Project Scope, Specifications, and Constraints.
- Applying Work Breakdown Structure for Project Decomposition.
