Process Safety Management Compliance

REF: E379 DATE: 3 - 7 June 2024 Venue: London (UK) - Landmark Office Space Fee: 6375 Euro

Introduction:

This training program provides comprehensive instruction on the principles, regulations, and best practices for ensuring safety in industrial processes. Through theoretical learning, this program equips individuals with the knowledge and skills needed to achieve regulatory compliance and promote a culture of safety in the workplace.

Program Objectives:

At the end of this program, participants will be able to:

- Describe the company's HSE Management Systems.
- How to demonstrate compliance with elements, sub-elements, and expectations of the HSE- MS.
- Understand the role of risk management in terms of risk assessment and incident investigation and analysis.
- Appreciate the role of human error in risk assessment and contribution to incidents.
- Identify weaknesses in the HSE- MS through analysis of root-causes for incidents.
- Learn how to be familiar with the requirements of HSG65, BS 8800, OHSAS 18000, ISO 9000 and ISO 14000.
- Prepare action plans, setting targets, and measuring performance.
- Appreciate the value of promoting positive safety culture within your organization.
