Kuala Lumpur (Malaysia)

Advanced Anti-Money Laundering/Combating the Financing of Terrorism (AML/CFT)

REF: F1616 DATE: 2 - 13 September 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 7950 Euro

Introduction

Money laundering and the financing of terrorism are financial crimes with economic effects.

Money laundering requires an underlying, primary, profit-making crime such as corruption, drug trafficking, market manipulation, fraud, tax evasion, along with the intent to conceal the proceeds of the crime or to further the criminal enterprise. These activities generate financial flows that involve the diversion of resources away from economically- and socially-productive uses—and these diversions can have negative impacts on the financial sector and external stability of member states. They also have a corrosive, corrupting effect on society and the economic system as a whole. Because of the negative consequences of these forms of financial abuses on our members' economies and financial systems, the IMF has been very active for over ten years in the AML/CFT area.

AML/CFT controls when effectively implemented, mitigate the adverse effects of criminal economic activity and promote integrity and stability in financial markets.

Course Objectives

At the end of this course the participants will be able to:

- Understand international money laundering standards and the participant's role as an Anti-Money Laundering Officer or Money Laundering Reporting Officer MLRO within their organization
- Establish a risk-based approach to AML, the AML/CTF Framework, business risk assessments, and suspicious activity reports
- Assess customer, product, and jurisdictional risk, and identify red flags
- Develop methods for training and culture to identify and combat money laundering activities related to their organization
