Financial Accounting & Reporting

REF: F1687 DATE: 2 - 6 December 2024 Venue: Casablanca (Morocco) - New Hotel Fee: 3685 Euro

Introduction:

This leading-edge Financial Accounting and Reporting online training seminar will refresh and update your knowledge and practical skills in corporate financial reporting as it goes through a phase of rapid and far-reaching transformation. The course will provide a refresher in the established foundation principles on which financial information is prepared and reported and will also set this within the context of the constantly evolving conceptual framework of the International Accounting Standards Board IASB and its International Financial Reporting Standards IFRS.

This online training course will also provide a vital update on more recent developments; the increasing focus on stakeholder value creation will be explored by examining the ongoing development of Integrated Reporting. The training seminar will also provide you with useful practical Excel skills in building financial ratio analysis tools, cash flow forecasting, and designing graphical financial reports for internal company use.

Course Objectives:

At the end of this course the participants will be able to:

- Understand the role of financial reporting in managing business performance
- Prepare financial statements in accordance with IASB standards
- Critically analyze and interpret financial statements and reports
- Assist in developing Integrated Reports for your own organization
- Apply practical Excel skills in reporting and forecasting
