Mini MBA in Health Quality Management

REF: M2358 DATE: 22 - 26 December 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 3520 Euro

Introduction:

The Mini MBA in Health Quality Management is a comprehensive training program designed to equip healthcare professionals and administrators with essential skills and knowledge in the field of healthcare quality management. This intensive program offers a condensed version of a traditional MBA curriculum tailored to the specific needs of the healthcare industry.

Objectives:

At the end of this program, participants will be able to:

- Acquire a solid foundation in healthcare quality management principles and concepts.
- Develop the skills to identify and analyze quality improvement opportunities within healthcare organizations.
- Implement effective strategies for enhancing patient safety and care quality.
- Understand the regulatory and accreditation requirements related to healthcare quality management.
- Lead and manage quality improvement initiatives within their healthcare settings.

Targeted Audience:

- Hospital and healthcare facility managers.
- Quality improvement coordinators.
- Healthcare administrators.
- Physicians and nurses.
- Healthcare policy analysts.
- Healthcare consultants and educators.

Outline:

Unit 1:

Introduction to Healthcare Quality Management:

- Overview of healthcare quality management.
