Online

Shutdown Maintenance Management for Electric Power Plants

REF: O1059 DATE: 14 - 18 July 2024 Venue: Online - Fee: 2500 Euro

Introduction:

Planning and managing shutdowns, turnarounds, and outages in the process plant environment is a complex and demanding function. If turnarounds are not properly planned, managed, and controlled, companies run the risks of serious budget overruns, costly schedule delays, and negative impacts on customers.

Course Objectives:

At the end of this course, the participants will be able to:

- Enhance the company's turnaround management capabilities, and to ensure a team approach in the planning and execution of plant shutdowns and turnarounds
- Provide a comprehensive understanding of effective turnaround management techniques and implementation
- Create awareness of planning methods and an integrated organizational approach in the execution of successful turnarounds
- Incorporate latest developments in turnaround planning and management techniques and emerging industry trends
- Develop an action plan to improve their own turnaround management techniques
- Have a much clearer understanding of their own and every other team members role in ensuring a successful turnaround

Targeted Audience:

This program is intended for all relevant Professionals, Consultants, and Managers. Participants attending the program take away a good multi-discipline understanding of the relevant issues. This training program helps the participant become productive quickly and help build a related Knowledge Framework that will help him identify, understand, classify, and remember the relevant on the job learning and experiences.
