Conference: Fundamentals of Transformation from the Monetary System to the Computerized Accrual System

REF: C1808 DATE: 3 - 7 November 2024 Venue: Cairo (Egypt) - Fee: 4095 Euro

Introduction

Given the importance of moving from the monetary basis to accrual in a smooth and simple manner, this training course shows the foundations for the transition from the monetary system to the accrual system using a computer.

And the cash basis accounting is based on the movement of cash only, but accrual accounting records revenues when they are realized and expenses when they happen instead of recording them when receiving or paying the relevant cash amounts, in addition to recording accrual accounting for assets, liabilities and property rights {net assets}.

Conference Objectives

At the end of this conference the participants will be able to:

- Switch from the application of the modified monetary system to the accrual system.
- Gain the benefits of accrual accounting.
- Gain the basics of measurement in accounting.
- Evaluate Fixed assets.
- Prepare financial statements in government units
