Quality Assurance in Practice ISO9001

REF: A1512 DATE: 16 - 20 September 2024 Venue: Rome (Italy) - Fee: 5940 Euro

Introduction:

Many organizations all over the world have used the ISO9001 quality management system standard as a framework for managing quality assurance within their operations and meeting the expectations of their customers. They have enjoyed the benefits of this structured approach to the control of risk and opportunities in their business.

Quality Assurance in Practice will provide delegates with a sound understanding of a practical approach to developing quality assurance in their organizations. This Management & Leadership training seminar examines the well-known ISO9001 framework as a foundation for developing quality assurance. This Quality Assurance in Practice training seminar goes on to look at the importance of risk-based thinking, the PDCA approach, and the process approach. Additionally, this training seminar explores other important aspects of developing a quality management system including the role of audit in organizational improvement and the development of document control to support your system are encompassed in this highly practical and participative training seminar.
