

ISO 31000 Lead Risk Manager

1 - 5 December 2024  
Cairo (Egypt)

# ISO 31000 Lead Risk Manager

REF: RC1996 DATE: 1 - 5 December 2024 Venue: Cairo (Egypt) - Fee: 3520 Euro

## Introduction:

This program is designed to prepare participants for the certification exam only while equipping them with essential skills for navigating today's dynamic and uncertain business landscape. The ISO 31000 standard serves as a globally recognized framework for managing risks systematically and proactively, with the ISO 31000 Lead Risk Manager playing a pivotal role in guiding risk management initiatives within organizations. With a focus on alignment with ISO 31000 standards, this training program ensures participants are well-prepared to excel in risk management endeavors.

## Program Objectives:

By the end of this program, participants will be able to:

- Understand the principles and guidelines outlined in the ISO 31000 standard for risk management.
- Develop proficiency in implementing risk management frameworks and processes according to ISO 31000.
- Learn effective strategies for identifying, assessing, and prioritizing risks across various organizational domains.
- Gain expertise in developing risk treatment plans and implementing risk mitigation measures.
- Acquire skills in monitoring and reviewing risk management processes to ensure continuous improvement and alignment with ISO 31000 standards.
- Enhance organizational resilience and decision-making capabilities through robust risk management practices aligned with international best practices.

## Targeted Audience:

- Risk managers and professionals seeking ISO 31000 expertise.
- Consultants specializing in ISO 31000 implementation.
- Business leaders overseeing risk management functions.
- Compliance officers aligning practices with standards.
- Professionals pursuing ISO 31000 Lead Risk Manager certification.
