Sales and Operations Planning Business Integration

REF: R705 DATE: 29 April - 3 May 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

This training program provides participants with a thorough understanding of how S&OP integrates business functions. Through exploring key concepts and real-world case studies, participants will learn to align sales forecasts with production plans and financial objectives. Emphasis is placed on cross-functional collaboration to optimize operations and drive business growth. The program equips participants with strategies to enhance customer satisfaction and maximize profitability through effective S&OP implementation.

Program Objectives:

By the end of this program, participants will be able to:

- Ensure understanding of Sales & Operations Planning S&OP.
- Explain process objectives and benefits.
- Describe 5 phases of monthly S&OP, identify involved personnel.
- Stress top management ownership and responsibility for S&OP success.
- Highlight the importance of lower-level preparation for process efficiency.
- Prepare participants for S&OP implementation in their organizations.
- Plan for successful S&OP implementation to improve business performance.

Targeted Audience:

- Operations Managers.
- Supply Chain Managers.
- Sales Managers.
- Inventory Managers.
- Finance Managers.
- Business Analysts.
- Cross-functional team members involved in S&OP processes
