Compliance Management System: ISO 37301 Lead Implementer

REF: A2000 DATE: 22 - 26 July 2024 Venue: Bangkok (Thailand) - JW Marriott Bangkok Fee: 6960 Euro

Introduction:

The advantages of putting into place a compliance management system CMS based on ISO 37301 are numerous and include assisting the organization in avoiding or minimizing the costs, risks, and harm of noncompliance, ensuring the organization's long-term sustainability, fostering trust and confidence, encouraging good governance practices, due diligence, and ethically sound business dealings, etc.

The ISO 37301 Lead Implementer training course gives students the skills they need to create, manage, operate, and continuously enhance a CMS. It aims to give a thorough grasp of the standards of ISO 37301 as well as the best procedures and strategies for setting up and maintaining the compliance management system.

The training program equips you to assist firms in establishing the procedures necessary to uphold all compliance requirements as well as the controls that proactively thwart noncompliance and support the development of an honest, open, and transparent workplace culture.

The certification exam comes after the training program. You can apply for the "Certified ISO 37301 Lead Implementer" certification if you pass. International recognition exists for the "ISO 37301 Lead Implementer" certification. It certifies your professional qualifications and skills to deploy a CMS in a company in accordance with ISO 37301 criteria.

Course Objectives:

At the end of this course the participants will be able to:

- Describe the ideas, strategies, tactics, and procedures utilized in the setup and efficient operation of a CMS.
- Describe how ISO 37301 relates to other standards and legal systems.
- Interpret ISO 37301 specifications from the implementer's point of view.
- Assist businesses with building, implementing, maintaining, and enhancing their CMS in accordance with ISO 37301
- Get a company ready for a third-party certification assessment

Targeted Audience:

- Managers, consultants, and compliance officers that want to fully comprehend what is required by ISO 37301 for a compliance management system
- Compliance officers accountable for exercising caution with respect to compliance risks
- People who want to help to upholding corporate integrity by encouraging moral conduct
- Teams in charge of governance, risk management, and compliance
