Investment Management

REF: M2192 DATE: 23 - 27 June 2024 Venue: Cairo (Egypt) - Fee: 3520 Euro

Introduction:

This Investment Management training program is designed to equip participants with the knowledge and skills needed to effectively manage investment portfolios. Through a comprehensive curriculum and practical exercises, attendees learn various investment strategies, portfolio construction techniques, and risk management principles.

Program Objectives:

At the end of this program, participants will be able to:

- Learn about various assets that can be considered to form an investment portfolio, their valuation, and measurement of performance
- Analyze the intrinsic value of traded assets using fundamental valuation theories as well as technical analysis
- Set investment goals and accordingly construct efficient portfolios
- Evaluate the performance of the portfolio.

Targeted Audience:

- Financial analysts seeking to enhance their investment management skills.
- Portfolio managers aiming to refine their investment strategies and techniques.
- Investment bankers looking to deepen their understanding of asset management principles.
