# Project Management Process Groups Overview

REF: P1661 DATE: 1 - 5 July 2024 Venue: Geneva (Switzerland) - Fee: 5940 Euro

## Introduction:

The Project Management Process Groups Overview program provides participants with a comprehensive understanding of the five key process groups in project management: Initiating, Planning, Executing, Monitoring and Controlling, and Closing. By mastering these foundational concepts, individuals can effectively navigate project management challenges and drive successful project outcomes. Having a project management methodology will strongly help organizations to achieve their strategic objectives.

## Program Objectives:

At the end of this program the participants will be able to:

- Understand the new concepts of Project Management created by PMI.
- Understand and demonstrate the project management process groups as per the PMBOK Guide 5th Edition – Initiation, Planning, Execution, Monitoring & Controlling and Closing.
- Practice for the PMI professional exam – PMP, PMI-RMP, and SP.
- Determine the gap areas they may have and follow a road map to enhance their competency level.

## Targeted Audience:

- Project managers, program managers, and project management practitioners.
- Construction, Corporate Planning, Finance, and Marketing departments.
- Executives, managers, and supervisors in government industry.
