Certificate in Company Law (CCL)

REF: U2125 DATE: 2 - 6 December 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction:

Professionals wanting a thorough understanding of the legal issues impacting businesses should take this course. The course covers the essential ideas of business law, such as the strategic choice and formation of various kinds of businesses, as well as the management and dissolution of businesses over the course of their existence. Participants also obtain important knowledge about legal concerns unique to GCC family businesses and discover practical ways to resolve them.

Course Objectives:

At the end of this course, the participants will be able to:

- Apply legal principles and rules to particular economic scenarios while taking into account applicable company law
- By deciding on the best company type and implementing the finest management methods, they can boost profitability inside their corporation.
- Recognize the laws that apply to family companies and how they impact their survival and success.
- Recognize the causes of business closure and dissolution, as well as the related legal concerns.

Targeted Audience:

- Lawyers, business managers, management teams, students of business and law, and anybody else interested in learning more about company law and its ramifications should take this course. Directors and executives who are directly in charge of making legal choices within the organization also gain from it. Additionally, those working in a legal department and in-house council who are new to the area find this training to be of great use.
