

ISO 21502 Lead Project Manager

21 - 25 October 2024
Cambridge (UK)

ISO 21502 Lead Project Manager

REF: P2008 DATE: 21 - 25 October 2024 Venue: Cambridge (UK) - Fee: 5830 Euro

Introduction:

The ISO 21502 Lead Project Manager training program aids in the development of the skills required for starting, planning, overseeing, controlling, and concluding a project in accordance with ISO 21502. It does not only give you a theoretical foundation in project management, but it also includes exercises and quizzes that will allow you to put what you've learned to use. You can apply for the exam once you've finished the training course. You can apply for the "Certified ISO 21502 Lead Project Manager" credential if you pass the exam. An internationally recognized "ISO 21502 Lead Project Manager" certificate verifies your talents as a professional and shows that you have the knowledge and skills required to manage a project in accordance with ISO standards.

Program Objectives:

At the end of this program, participants will be able to:

- Transform their concepts into measurable or intangible outputs.
- When creating and implementing initiatives, properly manage and involve stakeholders.
- Project initiation, planning, execution, control, and closure with particular goals, scope, and resources.
- Control project alterations and social and organizational changes that have an impact on initiatives.
- Conduct project-related risk assessments and manage those risks that are found.
- Study project management practices.

Targeted Audience:

- Project directors.
- Project backers.
- expert counsel.
- participants in a project.
- Project governance, project direction, and project auditing executives, managers, and directors.
