The Contracts & Purchasing MBA

REF: U1262 DATE: 27 May - 7 June 2024 Venue: Rome (Italy) - Fee: 10100 Euro

Introduction:

Purchasing is a complex process, which has the potential to provide many benefits to the organization in the form of lower prices, higher quality, and improved performance. Without effective purchasing, it is impossible for an organization to perform at full potential. The purchasing process leads to the establishment of contracts, and these are the life-blood of the commercial side of the business, ensuring the benefits of the purchasing process are carried through into the business itself. This MBA-level program provides a strategic overview of the essentials for strategic purchasing and the establishment and management of contracts.

Course Objectives:

At the end of this course the participants will be able to:

- Examine the role of purchasing and contracting in modern organizations.
- Understand the issues behind contracts.
- See how contracts can be used in an international context.
- Explore ways of creating contracts, and the different strategies available for different types of projects.
- Review different types of contracts.
- Examine some of the issues that arise in drafting contracts.
- Identify appropriate purchasing strategies for modern organizations.
- Identify and practice the required skills.
- Evaluate the key elements of operational excellence.
