Course: Advanced Trends in Reviewing Contracts and Contractual Responsibility

REF: U1814 DATE: 2 - 6 December 2024 Venue: Paris (France) - Fee: 5940 Euro

Introduction

It is certain that the stages of the contract are surrounded by many procedural aspects and practical problems that the specialists must take note of in all their details. In addition to the foregoing, the careful and extensive study of the practical applications of the most famous contracts concluded by the administration, whether public utility contracts, public works contracts or supply contracts, is of great importance. In order to be aware of all the administrative and legal aspects related to these contracts, as well as knowing the challenges related to technology contracts is essential for any technical or non-technical institution, so it is necessary to use websites to review contracts to know the items that must be included in the contracts.
