Excellence in Warehouse Management, Storage Safety and Inventory Improvement Technology

REF: L1532 DATE: 9 - 20 June 2024 Venue: Dubai (UAE) - Fee: 9030 Euro

Introduction:

Warehouses and Inventory Management are critical for the effective management of procurement and the supply chain to enable the efficient delivery of superior customer service.

Warehouses and Inventory controls are often overlooked and are not thought to be an important activity. Therefore, incorrect levels of inventory can be held with attendant knock-on effects on costs, availability, and customer service.

Course Objectives:

At the end of this course the participants will be able to:

- Learn the principles of Warehouse and Inventory Management
- Evaluate current procedures
- Examine operations and activities
- Analyze the key areas of operations
- Identify and Understand key performance indicators
- Succeed in improving operations
- Improve personal productivity
- Make needed changes to methods to improve customer service whilst achieving reductions in inventory
- Reduce wasteful costs
- Avoid those internal problems that limit performance
- Obtain added value for money
- Understand and implement the essential tools for managing warehouses and inventory in the supply chain

Targeted Audience:

- Supply Chain and all Logistics, Materials, Inventory, Stock, Warehouse and Distribution Professionals
- It will also help those who need to develop their limited understanding of Warehouse and Inventory management
- It will be especially helpful to all those who are looking to make business gains and benefits and to any owners, operators, and directors of companies with warehouse and stores operations and who hold stock and inventory

Course Outlines:

Unit 1: The Role of the Warehouse:

- Why we need a warehouse,
- What functions they cover,
