TQM and TOC

REF: M1385 DATE: 25 - 29 August 2024 Venue: Amman (Jordan) - ibis Amman Fee: 3350 Euro

Introduction:

The TQM and TOC training program equips participants with essential skills in Total Quality Management TQM and the Theory of Constraints TOC for enhanced business performance. Through this program, participants learn to drive continuous improvement and identify constraints to optimize organizational processes.

Program Objectives:

At the end of this program, the participants will be able to:

- Understand the evolution of quality management in products and services, assess the quality performance of a business and its financial considerations, and recommend an appropriate quality improvement methodology with respect to a company's structure, culture, and values.
- Understand the quality management functions, how they are linked, and make recommendations to an organization, while also focusing management effort and resources to best effect.
- Understand the link between quality, human resources, change management, and leadership, and adapt Lean systems to manage unexpected disruptions.
- Improve system performance without incurring additional capital or operating costs, and learn how to improve throughput and cycle time without the need for added resources.
- Increase in inventory turnover and shorten lead times.

Targeted Audience:

- Managers and leaders seeking to enhance their understanding of Total Quality Management TQM and Theory of Constraints TOC principles.
- Professionals involved in process improvement initiatives within their organizations.
- Employees interested in implementing TQM and TOC methodologies to optimize business processes and enhance organizational performance.
