Health Care Management and Administration

REF: S1520 DATE: 23 - 27 June 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 4095 Euro

Introduction:

This training program provides participants with a comprehensive understanding of the principles, practices, and challenges in managing healthcare organizations. Through it, participants are equipped with the knowledge and skills necessary to navigate complex healthcare systems and drive organizational success in delivering quality care.

Program Objectives:

At the end of this program, participants will be able to:

- Demonstrate a comprehensive understanding of the roles and responsibilities involved in medication reminders, assistance, and administration within healthcare settings.
- Possess the necessary skills and knowledge required for safe and effective medication administration practices.
- Advocate for and implement strategies to ensure the safe administration of medications within the context of the current healthcare delivery system, considering economic factors, accessibility, and the overall health of the population.

Targeted Audience:

- Financial management in healthcare.
- Branding and customer relationship management.
- Health services administration.
