TQM & Continuous Improvement Implementation

REF: A1146 DATE: 2 - 6 September 2024 Venue: Lisbon (Portugal) - Fee: 5940 Euro

Introduction:

The course will provide participants with comprehensive knowledge on the history and evolution of the concept of quality, as well as on the history of quality gurus and tools. The course will focus on applications of quality systems, models, and methodologies including excellence awards, ISO systems, and breakthrough improvement methodologies such as 'Lean' and 'Six Sigma'. This course will help participants apply the powerful quality tools used in leading organizations. Participants will leave with best practices on how to select, design, or apply quality structures and tools in their organizations.

Course Objectives:

At the end of this course the participants will be able to:

- Explain the importance of quality models and identify various quality concepts and frameworks used by quality gurus
- Discover the success elements of Total Quality Management TQM deployment
- Use TQM improvement tools to enhance customer satisfaction and improve processes within their organization
- Describe various types of benchmarking tools and techniques to boost quality initiatives
- Apply widely used improvement methodologies

Targeted Audience:

- Managers
- Supervisors
- Quality Management
- Individuals who are engaged in quality models, awards, ISO and TQM implementation as well as improving organizational performance
