Effective Supply Chain Management

REF: L1326 DATE: 15 - 19 July 2024 Venue: London (UK) - Landmark Office Space Fee: 5850 Euro

Introduction:

The development and implementation of carefully crafted strategies for the acquisition of all materials, goods, equipment, and services have become a critical issue in all organizations wishing to reduce operating costs while improving quality and productivity. This program explores key concepts forming the basis of procurement and supply chain management and moves through leading-edge issues that confront organizations today.

Course Objectives:

At the end of this course the participants will be able to:

- Review the meaning of strategic procurement
- Be given examples of best practices in procurement and the supply chain
- Review how to obtain the best pricing
- Be taught how to develop spend analysis
- Develop a functional and cross-functional view of the supply chain
- See that better working with all of the supply chain players pays
- Consider Key Performance Indicators KPIs

Targeted Audience:

- Supply, Buying, Purchase, Logistics, Materials and Supply Chain Professionals
- Those who need to develop their limited understanding of Logistics and Supply Chain Management
- Those who are looking for business gains and benefits from managing their supply chains more effectively
