## e-Procurement

REF: L1213 DATE: 2 - 6 December 2024 Venue: London (UK) - Landmark Office Space Fee: 5850 Euro

### Introduction:

e-Procurement is the business-to-business purchase and sale of supplies and services over the Internet. More and more organizations are viewing the application of best practices in e-procurement as being essential skill sets needed by all employees involved in the procurement process. This training course focuses on the development of e-procurement in an organization that then leads to the management of the complete e-procurement process.

This e-Procurement training course develops how to establish an e-procurement system within an organization that needs to purchase through the Internet. The important stage of managing the process is discussed in some depth. We establish how to provide and measure procurement contributions to the organization so that this critical function and all those in it can be elevated to be seen as a core organization competency.

### Course Objectives:

At the end of this course the participants will be able to:

- Learn the different forms of procurement
- Understand the requirements needed to develop an e-procurement system
- Appreciate the principles of negotiation
- Understand how to implement an e-procurement system
