Cairo (Egypt)

Conference: Risk Management & Effective Internal Audit

REF: C1994 DATE: 28 April - 2 May 2024 Venue: Cairo (Egypt) - Fee: 4095 Euro

Introduction

Environmental Management Systems are based on a proactive process for incident prevention as well as reactive monitoring of performance. Risk assessment is required to be applied to all activities that impact health & safety, production, asset, environment, and the Company's reputation, also this conference goes beyond the boundaries of risk assessment and management it helps the participants to create knowledge in the effective techniques of internal audit.

Conference Objectives

At the end of this conference, the participants will be able to:

- Learn how to evaluate different types of risk
- Develop the skills of applying advanced risk assessment techniques relevant to the process industry
- Develop a strategy for planning and implementing risk reduction action plans
- Appreciate the contribution of human error to accidents
- Apply advanced techniques for root-cause analysis of incidents
- Define internal auditing and internal control
- Identify "high-risk" processes and build control systems that mitigate the risk
- Develop control-based internal auditing recommendations that truly help management meet tactical and strategic objectives
- Audit Evidence and Audit Sampling

Targeted Audience

- Risk managers & project managers.
- Members of project offices, and project sponsors.
- Functional managers, senior management
- Individuals interested in Risk Management and Internal Audit

Conference Outline
